SpraymopMaster

628133 SLALOM 40CM LOOP MOP

905838 SLALOM 40CM MICROFIBRE MOP BLUE

A Professional Microfibre Floor Cleaning System

The 40cm/16" Spraymop has been designed to provide highly efficient performance with the minimum of effort, ensuring a high standard of floor cleaning in the shortest period of time.

In the majority of applications the mop will always be used "Damp", not too wet and not too dry, so that all surfaces are actually wiped clean. The NyloStripe mop head is a dual function operational design with the active stripes cleaning the surface, while the white fabric holds the accumulated dirt.

Before starting your cleaning, remove the pocket mop head from the mop holder, rinse under the tap and wring out until "Damp" and refit into the mop holder.

Fill the spray bottle with water and with the damp mop fitted, mop the floor normally. For extra performance you can add a small amount of floor cleaner or disinfectant to the bottle which will improve cleanliness, aroma and hygiene... three jobs done instead of one!

Due to the high performance cleaning characteristics of NyloStripe, floors can be cleaned without any added chemicals – NyloStripe and water do an excellent job.

When using the mop, you will soon see when liquid is required and at this point, a couple of pumps from the solution bottle will be all that is needed. Repeat as necessary, until the whole area to be cleaned is complete.

If you are cleaning a large area that is heavily soiled, rinse out the mop head under a tap as necessary.

Mopping Tips

(1) Mops can easily be washed as necessary at 90°C max. DO NOT use fabric conditioners, softeners, bleach or bleach agents as this damages the micro fibres.

(2) Do not leave mop head immersed in water, always leave to dry naturally.

(3) Although the NyloStripe mop is made to a hardwearing professional specification, please replace when signs of wear are evident.

(4) Because the Spraymop is so easy and fast to use, and the mop head is only damp, floors dry very quickly – so regular mopping is better than a once a week marathon.

The Spraymop provides a quick and effective floorcare system to professional standards.
